4.30 pm

ASEAN - UAE - ITALY
HIGHLEVEL MEETING

A partnership for success in Asia, the Gulf and Europe
Joining forces for sustainability through innovation

December 9, 2021

Time: 4.30 pm

Venue: Italy Pavilion Expo Dubai 2020

The pandemic has accelerated a process of change in the world economy stressing the paramount importance of sustainable development. The unprecedented, formidable amount of financial resources made available at national and multilateral level represents a once in an era opportunity. The member Countries of ASEAN, the UAE and Italy share a vital interest in taking part in this epochal process. The role they can play individually is relevant, but it can be even more significant and profitable for all if they pool their complementary ingenuity, experience, competences and resources.

Participants from the public and the private sector at decision makers level will be encouraged to introduce and discuss substantial and viable options of trilateral partnerships in strategic sectors where synergies look more promising.
